## GENERAL CONTRACTOR NOTES

- Field verify all measurements, dimensions, elevations and conditions prior to construction.
- All dimensions are to take precedence over scale dimensions on plans, elevations, sections and details.
- G.C. to hang menu board employee plaques, and all signs with counter sunk brass screws.
- G.C. to mount diaper changing shelf with counter sunk brass screws.
- G.C. to be responsible for all fees, permits and licenses.
- Sprinkler system to be lowered or raised to new ceiling height in all areas where needed. G.C. to use licensed fire sprinkler company to supply five extra heads and wrench (the wrench to remain in sprinkler closet).
- G.C. to remove air diffusers and return air grills after any work on ceiling.
- Relocate fire extinguishers where required.
- Refinish all walls where needed.
- All trim to be sanded and sealed.
- All new full walls and half-walls must have vinyl base to match existing base. Re-adhere loose base on existing walls.
- All trim must extend to end of walls, doors, etc. (trim to match existing).
- Provide and install chair rail on all walls. Caulk top and bottom. Chair rail to match existing.
- All relocated and added doors to have door hinge stops.
- Re-carpet room No. 1.
- Provide and install beverage and order counters. Install drop safes in new order counter.
- Provide and install mirrors with full coverage plastic.
- Add traps to any drain worked on under scope of work.
- Run drain line for Coke machine.
- Run water line to coffee maker and Coke machine in beverage area.
- Run water line to tea maker in kitchen next to pick up window.
- Use FRP behind beverage area. Match existing. See detail.
- Trim around beverage opening should be all one piece.
- Caulk back splash on beverage counter top, bottom and sides.
- Provide and install stainless steel corner guards on new beverage bar. See detail.
- All solid base, buffet-type food service and other self-service food shall be shielded so as to intercept a direct line between the customer's mouth and the food being displayed by the proper positioning of the sneeze guard.
- G.C. to mount portion chart one foot 1" above make table.

- Run new air line off existing. Extend line above ceiling. Drop line concealed in wall to valved termination at Knock-Down and Whack-A-Moon locations. Use 1" PVC schedule 40. Provide and install switch plate covering air line at 40.
- G.C. to cut opening through wall for beer box installation. G.C. to provide and install styrofoam box for beer box. Beer box installation by owner. Provide and install stainless steel cover for unused dispenser opening. See detail.
- Install Little Giant 55320 vertical pump for beer drain pan. Connect tubing to 1/2" PVC. Run above ceiling and drop down concealed in wall to nearest floor drain. Field verify with Project Manager.
- G.C. to install existing glass chiller behind order counter prior to sitting counter in place. Field verify chiller is on site. If no chiller is available, unbolt wheels of under counter refrigerator and install behind order counter prior to sitting counter in place. Legs to remain on unit.
- G.C. to mount printer on piek on make table.
- G.C. to mount guest check holder to bottom of portion chart.
- Laminate pass-thru shelf with Wilsonart D12-6 Reginald Red.
- Provide and install D.W.V. drain line run from salad pan to existing floor drain. Provide 1 1/2" gap between salad drain and floor drain.
- All wood trim to be natural color.
- All light bulbs will be re-installed each day.
- Caulk all cracks and joints.
- All outlet covers must be replaced each day.
- Provide and install weather stripping on exterior doors and door sweep on bottom of door.
- All outer doors must be self-closing and tight fitting.
- Remove clips on ceiling tile before painting.
- Replace any broken or missing quarry tile and quarry base.
- Laminate all counters with Wilsonart D12-6 Reginald Red and Marlite D16-602 Natural Oak Design (2" scored) on gift counter and order counter. Reference detail for application.
- Laminate picked tables with Nevamar SW-9-047. Butcher Block, verify with Project Manager.
- Re-laminate two Thank You boxes with Wilsonart D30-6. Natural Almond.
- Re-work one Thank You box for hostess stand. See detail.
- Remove dinner boxes, patch walls where dimmers and switches are removed.
- Reinstall two (2) "KIDS APPRECIATE" signs in kiddie area.
- Carpet Space Station steps.
- Re-locate monitor shelves where required.
- Lay carpet from front to back of building.
- Provide and install 2" x 4" piek on ceiling tile over Hoop Shot.
- Secure to grid with six screws and spacers. Install piek parallel to Hoop Shot.
- Hang six (6) Duck umbrellas randomly, not in pattern, in kiddie area where light does not shine on them.
- Install Daltile #1628 Gobi 8" x 8" with poly blend grout and penetrating grout sealer. Grout to be custom Building product. Antique white in color.
- Provide new ceiling in sprinkler riser closet.
- Provide and install 1/2" Marlite corner solid on all half-wall corners and 1/2" x 3/4" x 1/4" metal angle brace at all half-wall openings. Cover both sides of half-wall with Marlite 5401 Buff. DO NOT PAINT UNLESS OTHERWISE NOTED ON ELEVATIONS.
- Project Manager will determine whether counters will be kept or disposed of by contractor.
- Rework air ducts where required.
- G.C. to saw cut floor for floor outlets.
- Project Manager will determine whether to rework or fabricate new Thank You boxes, if site visit is not made prior to construction.

## PAINTER NOTES

- Paint ceiling mounted speaker boxes P-1. Do not paint fabric.
- Paint all walls, including vinyl.
- Paint ceiling over stage P-11.
- All tape on fixtures to be removed each day.
- Pictures must be covered or removed when painting. Provide plastic over tables, chairs, counters, games and plants.
- Paint coat to be ris match. Paint second coat latex or blue enamel.
- Clean and paint all grills and diffusers.
- Paint track lights, show lights, light bare and projector.
- Use Japan drying agent in enamel.
- Paint monitor shelves P-1. (Existing). New shelves natural.
- Use quick drying mud for joints and texture.
- Paint columns P-1.
- All light bulbs will be re-installed each day.
- All outlet covers must be replaced each day.
- Paint walls behind all mirrors and mural before installing.
- Paint clean-up lights P-1.
- Tape and bedding to be done by painter.
- Paint ceiling tile and grid P-11 where required.
- Paint trim around front door.
- Paint screw heads on all signs and murals to match colors of signs and murals.
- Hand paint ceiling projectors and vents with brush.
- Do not paint instruction plate on back of the projector.
- When painting ceiling diffusers - remove diffusers, spray duct and adjacent area P-11. Paint diffusers and reinstall.
- Paint exterior electrical panel and conduits and gas piping.
- Paint edges of the sides of the ball crawl steps P-1.
- Paint P-11. (Existing). New shelves natural.

## Glidden V-1 Resource 1000 VINYL WALLCOVERING TYPE I

**SPECIFICATIONS**  
Product Name: Glidden Vinyl Wallcovering Type I, Class A  
Product Description: Decorative vinyl-coated and laminated to cotton or cotton polyester fabric. This product is not designed for exterior use.

**TECHNICAL DATA:**  
SEE PHYSICAL PROPERTIES ON OTHER SIDE FOR DETAILED INFORMATION. SEE PHYSICAL PROPERTIES FOR EACH PATTERN LISTED ALPHABETICALLY ON PREFACE PAGES.

\*All Glidden vinyl wallcoverings exceed specifications for Type I CCC W 405A & B.

### SURFACE PREPARATION

**GENERAL** - Remove all dirt, grease, old adhesive, loose paint and plaster from surface. Fill all openings, cracks, devices and holes with spackling compound. Sand smooth.

**Unpainted Drywall** - To ensure a uniform surface for proper adhesion and for easy removal of the vinyl for future redecorating, prime walls with Glidden ULTRA-HIDE Oil Based Wallcovering Primer-Sealer No. 64987 according to label directions. For one-step installation of fabric backed vinyl wallcoverings over unpainted wallboard, use ULTRA-HIDE Stripplable Wallcovering Paste No. 670. It permits stripping at a later date without damage to wallboard.

**Unpainted Plaster** - On old plaster, remove all surface chalk. If the surface is extremely smooth, scuff sand and wipe clean. New plaster must have a 5% or less moisture content. Check with a moisture meter. Also check for alkalinity with litmus paper. If the surface is alkaline, prime with Concrete Ultra-Hide Oil Based Wallcovering Primer No. 64987.

**Painted Surfaces** - Previously painted surfaces should be sound and free of loose paint or scales. Dull glossy painted surfaces. All painted surfaces should be checked for pigment bleed-through. Other surfaces - For surfaces such as metal, glass, floor coverings, prime with Glidden ULTRA-HIDE Wallcovering Primer Bond No. 64960 for maximum adhesion. Consult your local Glidden representative for information on other surfaces.

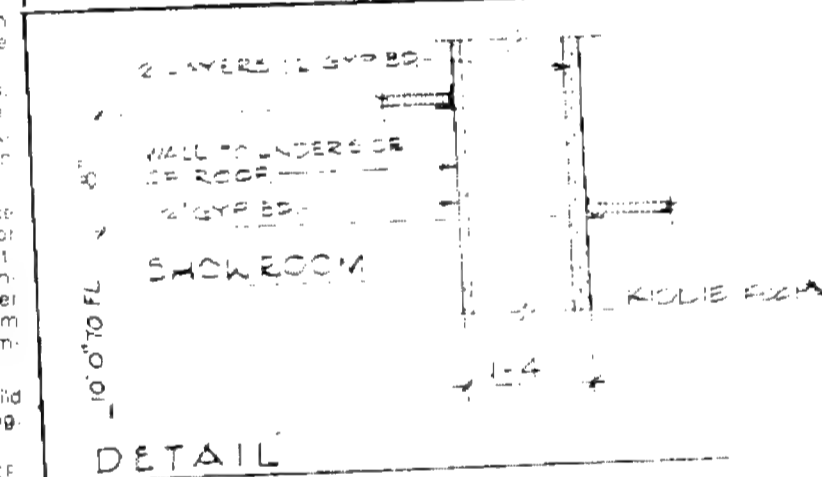

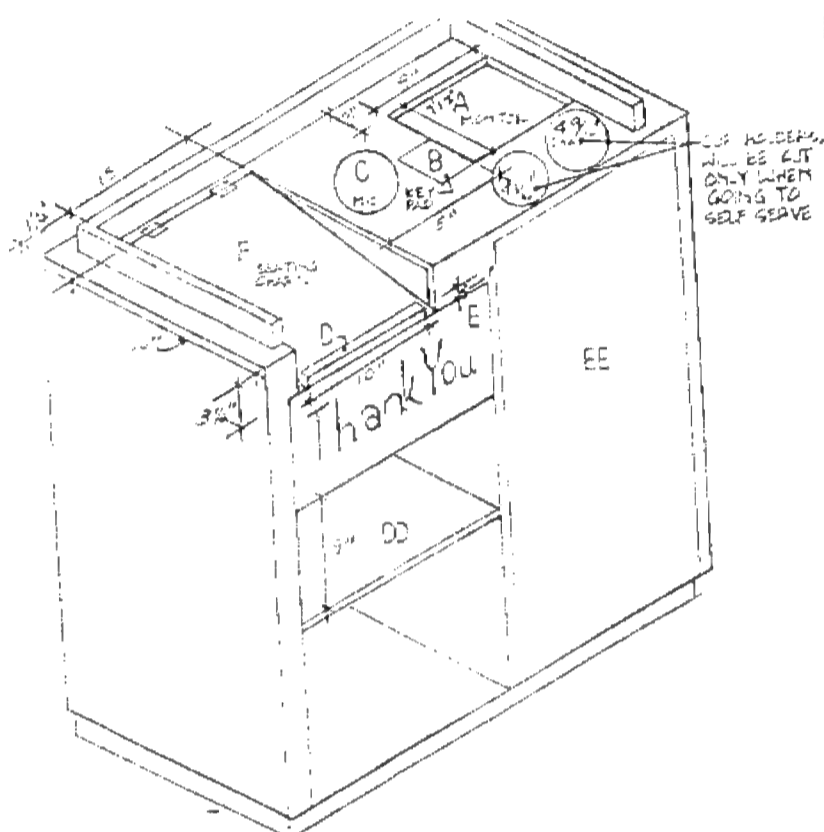

**APPLICATION** - Glidden ULTRA-HIDE Wallcovering Primer No. 64987 should be applied in accordance with manufacturer's written instructions. Use leveling for correct pattern and color before cutting. Hang panels in the exact order that they are cut from the roll. Reverse top and bottom of every other strip when hanging solid colors and when matching textures. Double the corners, straight seams. Aross above doors and windows should be hung in accordance with the other panels. Wallcovering, whether wet or dry, is not to be touched. Remove excess adhesive from wallcovering surface immediately after application of each panel. Notify the Glidden supplier immediately if defective material is discovered.

**MAINTENANCE** - Periodic cleaning of the wall with a soft cloth and mild detergent is recommended. Use mild soap or detergent dissolved in warm water. Rinse thoroughly with clean water after washing. Most stubborn stains can be removed with a supply of mild rubbing alcohol.

**TECHNICAL SERVICES** - FOR 5" X 7" SAMPLES AND SPECIFIC TECHNICAL ASSISTANCE CONTACT YOUR LOCAL GIDDEN REPRESENTATIVE.
